Reference materials are essential in the calibration of instruments and to assess a measurement method. About the **IPTA®** project, the DCC GmbH provides reference materials to improve the precision, accuracy and precision in the analysis of solid fuels or from plant by-products.

For the performance of the UN N4 Test, the DCC GmbH offers the necessary sample container and container cover. Price netto: *The value added tax is not applicable for participants from the European Union outside of Germany with indication of VAT number.

The general terms and conditions of the DCC-GmbH are valid.
